

HINDU COIN (HNC)

Coin for Hindu

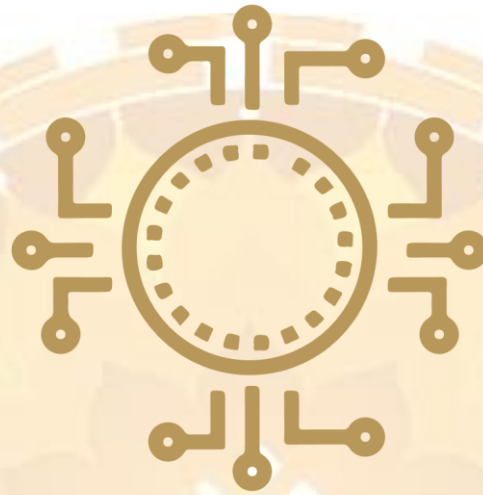

Continuous evolution has always been a feature of human societies since their inception. Human societies always tend to grow, move forward & look for new directions. The way of trading could not be an exception to this.

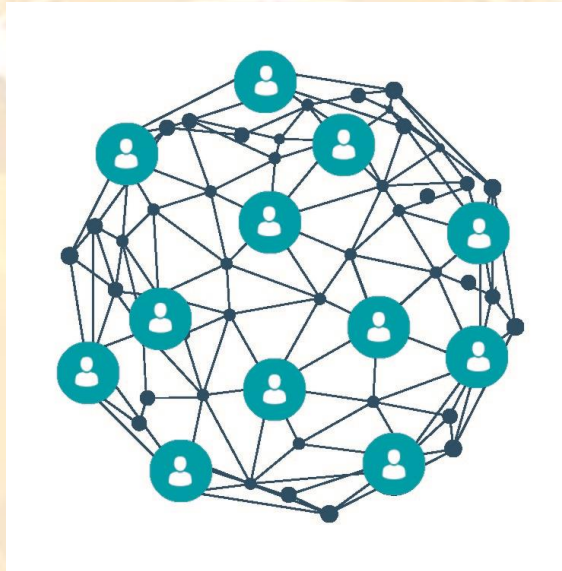

Moreover, the spread of mobile phone use with the parallel "birth" of Bitcoin in 2009 - the world's first digital currency - has completely changed the way traditional currencies are used.

More than 8,000 digital currencies have been created to date, innovative technologies have emerged & new challenges have stood out, showing in the most convincing way that the future of digital trading is here!

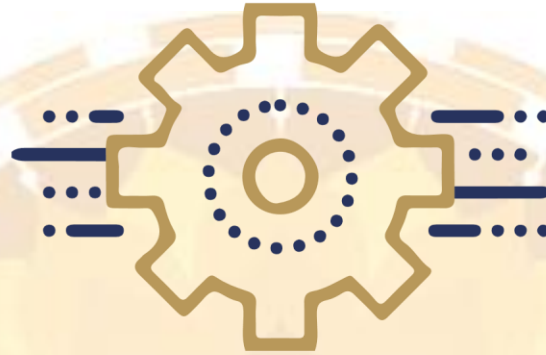

**Among hundreds of crypto-projects,
HNC comes to make a difference & to be the
1st usable digital currency of our time on a
global scale!**

Based on a revolutionary blockchain technology that allows HINDU COIN to be safely transferred to any user worldwide in 1 second - as opposed to the 10 minutes Bitcoin currently requires.

Unlike most digital currencies, the HINDU COIN is designed to be a dual purpose currency. That is, to exist as a means of payment on the one hand but also to be treated as an innovative investment solution on the other. HINDU COIN also provides a complete payment ecosystem and integrate its use into it.

- **Creating an integrated ecosystem around the HNC.**

A means of trading and payment that simultaneously gives the user benefits in a rapidly growing part of his financial and investment activities.

- 
- **A licensed and regulated Estonian Legal Entity**
under the country's National Financial
Intelligence Unit is currently being
established. The fully licensed entity will be
responsible for the operation of the HINDU
COIN
Revolution Exchange and the Masternodes.

- **With the support of Blockchain Association** which will unite all the individuals affiliated with the blockchain technology and will also welcome all the newcomers of this innovative technology as well as it will act as a resolute custodian, regarding management decisions.

- **Preliminary agreement** with a Global Market Leader Digital Asset Custodian, that paves the way for investments from institutional portfolios which are expected to increase rapidly.

HNC'S REVOLUTION ECOSYSTEM

- **A HardFork will occur**
as radical changes need to take effect in order to offer
higher security and add new functionalities. This will
result into two branches: the HINDU COIN 2015 and the new
HINDU COIN
Revolution. Owners of HINDU COIN 2015 coins, will be given
the option to obtain HINDU COIN Revolution Coins through

- **BLOCKCHAIN TECHNOLOGY**
a Swap procedure (HINDU COIN 2024/HINDU COIN
Revolution ratio 1:1).

Based on Proof of Service X11 SHA3 Dash Algorithm, that provides indisputable security to HINDU COIN and allows the execution of 10,000 transactions per minute. INSTANTSEND allows immediate transactions up to

2,000 coins. Each transaction is executed within one second and with a fraction of the cost of the vast majority of other digital currencies.

- **HNC Revolution Exchange Market** is going to be the official platform that will undertake the Swap procedure. Users will be able to swap their

**HINDU COIN 2015 coins with the new HINDU COIN
Revolution coins in a**

**1:1 ratio until 30th June 2021. The Swap will take place on
HINDU COIN-Revolution Exchange with the highest KVC,
AML and GDPR standards.**

Masternodes

**For a node to become a Masternode,
it must own at least 1,000,000 coins.
Tasks performed by the Masternodes:**

- 1. Block validation**
- 2. InstantSend**
- 3. PrivateSend**
- 4. Vote on the governance
and funding proposals of the project**

**Initially 10 masternodes are going to be created on behalf of the
HNC Project**

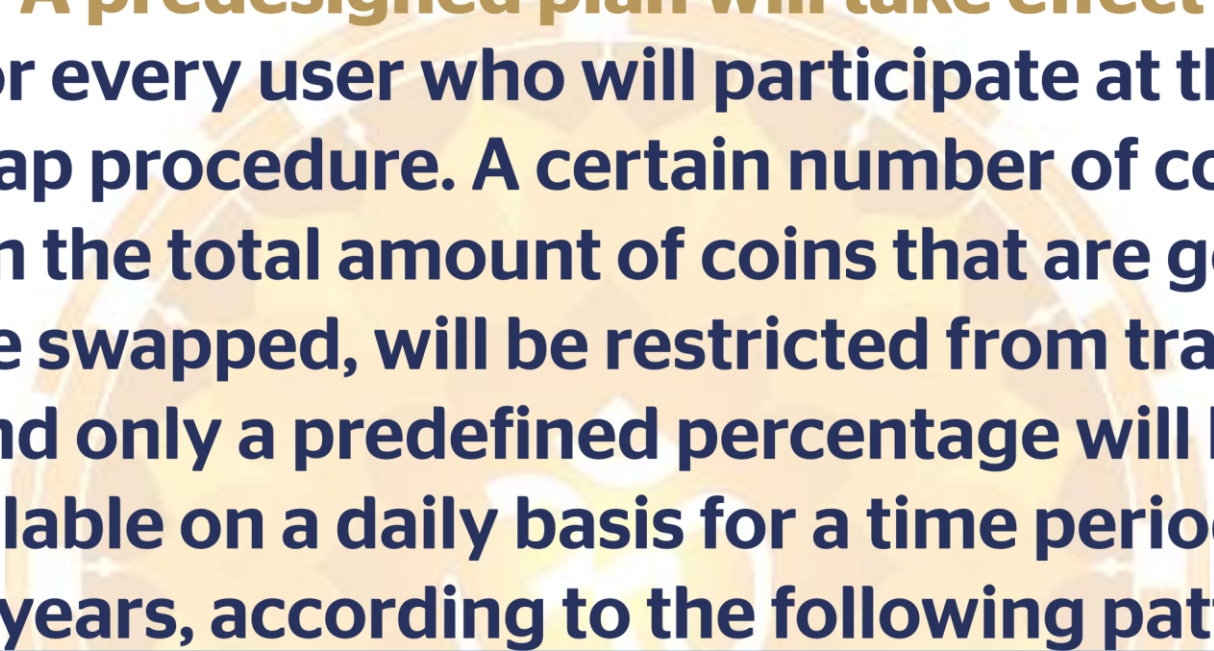

Block Reward Payment

99%
Of the block reward
goes to the masternodes.

1%
Of the block reward
goes to the miners.

A predesigned plan will take effect
for every user who will participate at the
Swap procedure. A certain number of coins
from the total amount of coins that are going
to be swapped, will be restricted from trading
and only a predefined percentage will be
available on a daily basis for a time period of
five years, according to the following pattern:

For the 1st Year, 5%/365

of the total swapped coins will be available every day

For the 2nd Year, 10%/365

of the total swapped coins will be available every day

For the 3rd Year, 15%/365

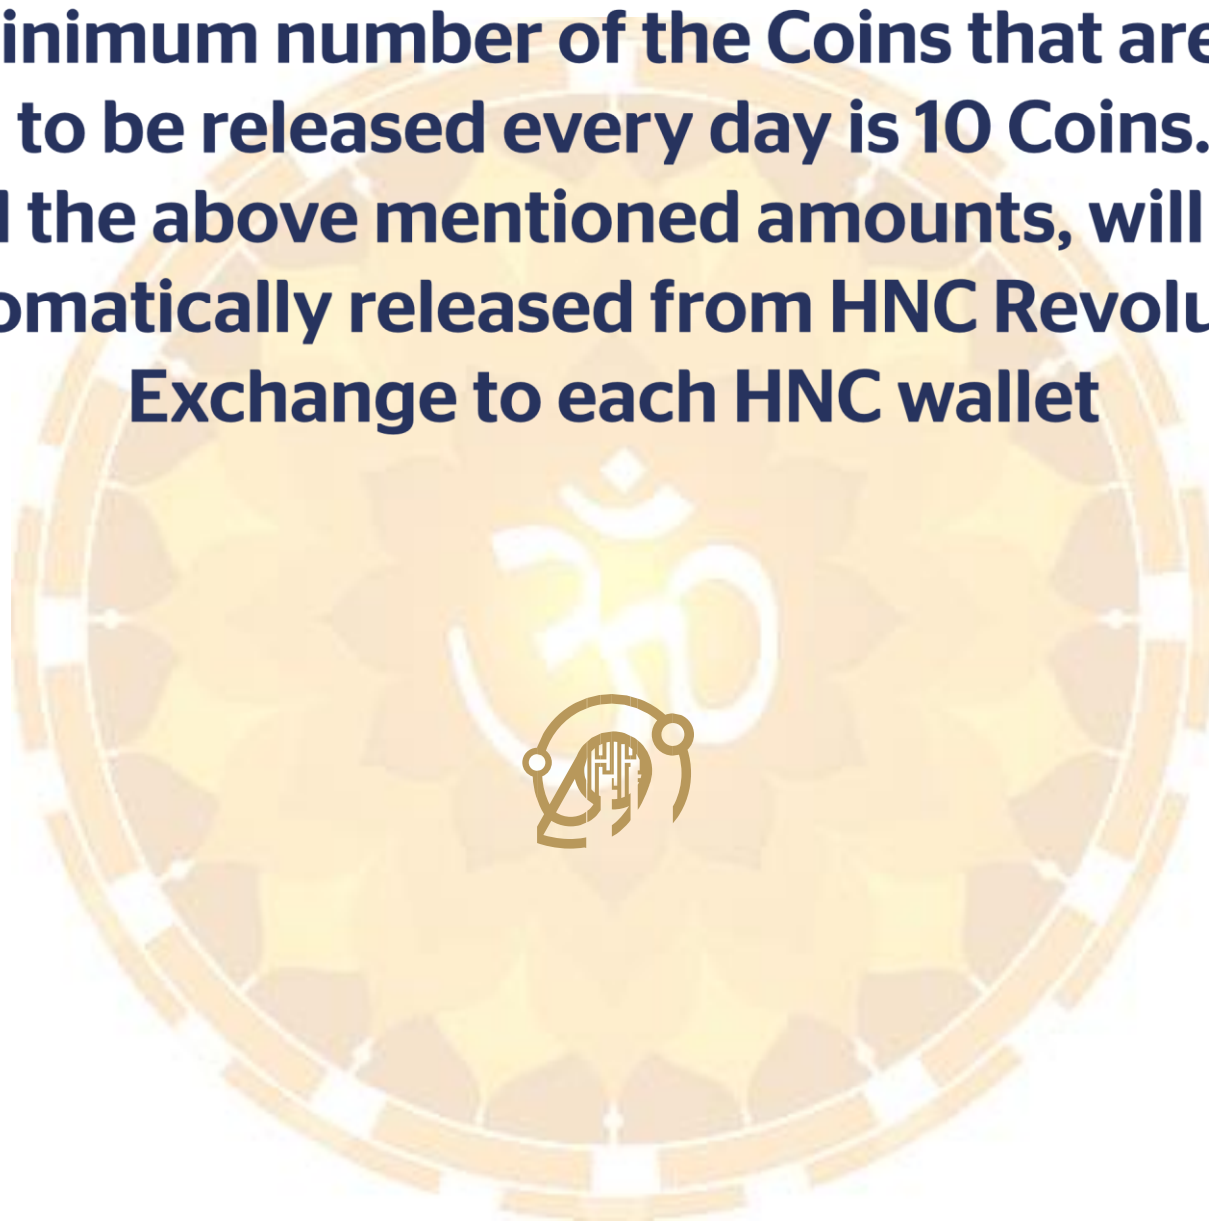

of the total swapped coins will be available every day

For the 4th Year, 25%/365 of the total swapped
coins will be available every day

For the 5th Year, 45%/365 of the total swapped
coins will be available every day

The minimum number of the Coins that are going to be released every day is 10 Coins.

All the above mentioned amounts, will be automatically released from HNC Revolution Exchange to each HNC wallet

• **HNC Revolution Coins**
that are being traded from May 17th, 2021
onwards will not have any restrictions.

The logo is a circular emblem with a golden-yellow base. It features a central white Om symbol. Surrounding the Om are concentric rings of stylized, overlapping leaf or petal shapes in shades of gold and brown. The outermost ring consists of larger, more distinct petal-like segments.

HINDU COIN Revolution will be available for trading in at least 4 cryptocurrency exchanges (P2PB2B, GokuMarkets, Excelon Exchange, HINDU COIN Revolution Market).
